

2010 Morgan 4/4 Sport Competition

£26,950

2010 Morgan 4/4 Sport Competition

One of a handful of Morgan 4/4 competitions produced at the Morgan factory; these rarely come to market making this quite a rarity.

Based on the Morgan 4/4 fitted with a 110BHP Ford Sigma engine, this Competition version was taken to the next level through the fitment of a set of Jenvy throttle bodies and an Omex ECU which dramatically increased the power from standard. This particular example is fitted with a Librandts side exit sports exhaust with sports cats pushing the output to somewhere between 155/160BHP!

It's fitted with a full race pack, roll cage, kill switch, tow straps, fire extinguisher kit, panhard rod and race harnesses, but also retains it's comfortable leather seats, trimmed interior and full working roof; you can either run this in full road trim or take the screen off fit an aero screen and take it to the races!

This particular car is presented in ivory with a black interior, it looks, sounds and goes fantastically, I test drove it the other day and had totally forgotten just how exiting, and quick these little cars are, with its high power to weight ratio and addictive exhaust note it makes it a real drivers car!

Showing 5500 miles on the clock and 7 stamps in the service book, there are some cosmetic enhancements needed to the edges of the paintwork, but it presents very well other than that and will come with a pre sales check over and 12 month MOT. (last serviced 100 miles ago in Jan 25 by Revolutions Morgan)

Priced at just £26950.

*There is also a Brian James Clubman trailer available by separate negotiation

(available with the car or separately after the sale if the new owner does not want it as a package deal)

Make	Morgan
Model	4/4 Competition
